GHULAM AKBAR

MERN STACK DEVELOPER

PROFILE

I am a MERN stack developer with strong problem-solving and programming skills. I've successfully delivered projects using React.js and Next.js for the frontend, along with Express.js for the backend. My expertise extends to decentralized servers, and I have a solid understanding of databases and server-side scripting. I take pride in delivering designs that are 100% responsive and pixel-perfect.
